EQUIPMENT CERTIFICATION

Equipment:	Casing Elevator
Manufacturer:	Texas Oil Tools
Model:	TA-100 4½" CSG
Capacity:	100 Ton
Serial Number:	200901
Load Test Number:	MLC-23904LT0417
Reference:	CCE 4-4

The above elevator was examined in detail on February 20, 2019 at Maple Leaf Consulting's shop. The above elevator was fully disassembled and sandblasted for a C.A.O.D.C. RP-2.0 Level IV inspection. Magnetic particle and/or visual inspections were completed on all accessible areas of the body, door, latch, secondary latch, hinge pin, latch pin, secondary latch pin, latch spring, and secondary latch spring.

Based on the inspections, it is our opinion that the unit is safe to operate within its rated capacity when used in accordance with the manufacturers' specifications and/or industry standards.

In accordance with C.A.O.D.C. RP-2.0, a certification period of 500 operating days is recommended. Due to the nature of Canyon's business, this **certification is valid for a period of 2 years** or until the unit has been damaged structurally by either handling or operation. Unengineered structural modifications to this unit will void this certification.

PERMIT TO PRACTICE	
MAPLE LEAF CONSULTING INC.	
Signature	<u>Everett M. Gusek, P. Eng.</u>
