## EQUIPMENT CERTIFICATION

<b>Equipment:</b>	<b>Slip Type Elevator</b>
<b>Manufacturer:</b>	<b>Oil Country</b>
<b>Model:</b>	<b>YC</b>
<b>Capacity:</b>	<b>75 Ton</b>
<b>Serial Number:</b>	<b>JY 244-01 24140-100</b>
<b>Load Test Number:</b>	<b>MLC-23906LT0417</b>
<b>Reference:</b>	<b>CCE Y-1</b>

The above elevator was examined in detail on April 5, 2019 at Maple Leaf Consulting's shop. The above elevator was fully disassembled for a C.A.O.D.C. RP-2.0 Level IV inspection. Magnetic particle and/or visual inspections were completed on all accessible areas of the body, door, latch, secondary latch, hinge pin, latch pin, secondary latch pin, latch spring, 5½" setting plate, and (4) segment bolts.

Based on the inspections, it is our opinion that the unit is safe to operate within its rated capacity when used in accordance with the manufacturers' specifications and/or industry standards.

In accordance with C.A.O.D.C. RP-2.0, a certification period of 500 operating days is recommended. Due to the nature of Canyon's business, this **certification is valid for a period of 2 years** or until the unit has been damaged structurally by either handling or operation. Unengineered structural modifications to this unit will void this certification.

<b>PERMIT TO PRACTICE</b> <b>MAPLE LEAF CONSULTING INC.</b>
Signature <u>Everett M. Gusek, P. Eng.</u>
Date <u>April 5, 2019</u>
<b>PERMIT NUMBER: P 7117</b>
